

BANDERSNATCH

Honest Bus #3 status before students leave for the stop.

Pre-seed one-pager | Campus mobility

product-capstone-2026.vercel.app/en

PROBLEM

- 5-12 hours lost weekly by KIU off-campus students relying on Bus #3 when official ETAs are misleading.
- Interviewed students report 1.5-3 hour buffers, 6-10 GEL taxi spend, missed quizzes, and sleep disruption.

SOLUTION

- A mobile-first pre-departure check for stop selection, status confidence, crowding reports, and peer-powered route visibility.
